## Water Project Phase 1 Street Repairs and Additional Streets to be Chip Sealed

- The town council has received many comments from the public regarding the town's streets. In an effort to repair some of the streets that need the most work, the town is asking for your cooperation in removing any and all obstructions from the streets. Please read the information listed below about which streets will be chip sealed.
- The projected start date is May 21, 2024, depending on weather. As more information is received from the contractor regarding starting dates and the order streets will be chip sealed, the town will pass this information on to the public. Please check on Facebook, the town website or call the town office at 406-467-2510.
- The town will be finishing phase 1 of the water project this spring and early summer. Hard Rock Construction and Helena Sand and Gravel will be in town to repair and chip seal any of the streets that were dug up during the construction last summer.
- The town was able to secure money through grants and town funds to repair and chip seal additional streets in town.
- Some streets will be receiving a single shot of chips, and some will be receiving a double shot.
- All cars, pickups, trucks, campers, boats, and trailers must be moved off the streets when chip sealing begins. Notices will be sent out and posted prior to any chip sealing. Efforts will be made to contact any owner that has not removed their vehicle.
- If the vehicle is not removed when chip sealing on that street begins it will be towed at the owner's expense.
- Listed below are the streets that will be chip sealed during the project.
